

Quiz 2: MySQL Database Check

- **Due** Jan 21 by 11:59pm
 - **Points** 100
 - **Submitting** a file upload
-

In this quiz you need to demonstrate that you have successfully gained access to a MySQL database. Running the diagnostic from the Node.js install is sufficient for this. But if for some reason you are having difficulty getting a web server set up but can still access MySQL via the GUI, then a screenshot of that GUI with a table you created is sufficient to demonstrate you have access to a MySQL database.

Please submit a screenshot of either the live website showing that it successfully connected to your database or a screenshot of a table you have created in a MySQL GUI.
